Our Covid-19 Response:

Dear Clients,

We are closely Monitoring, Covid-19 and the health and safety guidelines provided both by the C.D.C and state agencies. Every driver will have a temperature check prior to his/her route. Drivers are required to wear a face mask while operating a GTS Vehicle. Each one of our Buses and Vans have been thoroughly cleaned and sanitized. We are doing everything we can to ensure the safety of anyone who uses GTS Buses & Vans. Drivers are also taking extra time to wipe down interior touch points with disinfectant after each passenger trip. We are fully disinfecting buses/vans as they return to the garage. We will monitor this unfortunate pandemic daily and keep everyone updated to our changes and policies as needed. We look forward to serving and continuing our partnership with you!

**Best Regards,
Fulance Garner.**
